**UK Core courses**

***Students have a great deal of flexibility, so that they may opt to: 1) increase the number of German courses to gain even greater proficiency with the language and culture; 2) to add a second language tailored to student interests or professional goals. Here Russian is used as a model for a person who hopes to pursue a career in Northern Europe or in Germanic/Slavic languages, but other options (Arabic, Chinese, French, Japanese, Latin, Greek, Hebrew, Italian, or Spanish) are also possible; 3) to add a minor in another field tailored to the student’s interests or professional goals, e.g., Political Science, Anthropology, Geography, Linguistics, Folklore and Mythology, History, etc.***

****Students opting not to study a second language should take FR or ITA 011 in Year I or II to meet the German MA requirement for reading knowledge of second language.****
*****Students are eligible for MCL Scholars (will graduate with honors in the degree) if they:
1) Have a high school GPA of 3.5 or higher upon entry to UK;
2) Maintain an overall GPA of 3.5 or higher while at UK. If the overall GPA falls below 3.5, the student will be removed from the MCL Scholars Program;
3) Participate in an Education Abroad Study Program or International Internship;
4) Complete the MA exam successfully.

*****Students will enter their 1st year at UK with at least 15 AP/dual credits and will be placed at the appropriate level on the basis of a placement exam.
